

Our vertical turbine compatible seals offer unmatched value on a cartridge platform. Jumbo springs, floating stator design and our Smart Drive System comprise the industry's leader.

↔ TUNGSTEN CARBIDE AND VITON STANDARD

↔ JUMBO SPRINGS

- Reduce fatigue
- Allow for greater axial travel
- Reduce clogging issues
- Prohibits chloride stress corrosion

OURS

THEIRS

↔ MICRO POLISHED SURFACES

- Micro Polished dynamic o-ring surfaces reduce solids build-up and drag

↔ FLOATING STATOR DESIGN

- Assures proper face alignment
- Improves film/lubrication performance
